Kentucky Derby 2023 D.ö.s.a.g.e Number:

Rule 1: Entries at Post Time with a D.ö.s.a.g.e Number Greater Than 3.00 *never* win

D.ö.s.a.g.e Number fell apart as indicated in following table.

Therefore have to retool.

In meantime 2023 D#'s are given on the next page.

Past Dosage Numbers that won: (Remember Rule 2)

year	Winner	D#	
2023			
2022	Rich Strike	3.44	
2021	Medina Spirit	3.00	
2020	Authentic	1.91	
2019	Maxim Security-disqualified	2.67	Country House 3.33 D# won by default
2018	Justify (Top WS pick)	3.07	
2017	Always Dreaming	2.67	
2016	Nyquist	1.44	
2015	American Pharoah	1.44	
2014	California	1.44	
2013	Orb	2.22	
2012	I'll Hav	2.47	Bodemeist was fav w 3.07 D# & didn't win
2011	Animal	2.84	
2010	Super S	2.67	
2009	Mine Th	2.92	
2008	Big Brother	2.08	
2007	Street	1.71	
2006	Barbaro	1.91	
2005	Giacamo	3.00	

Started to fall apart in 2018 but exception if an eliminated pick is the number one pick on the White Sheet.

Then in 2019 my winner met rule 1 until it got disqualified—since I can't predict which horses are going to be disqualified was going to call this data point an outlier.

Then in 2022 the 3.44 D# winner was over the edge—D# not 100% as I had wanted it to be.

Too many qualifications required to sustain it so retool and make it be the best other thing—still to be determined—that I can make it.

To be continued.
